### Where Will Casey and Bella Go Next?....

Casey and Bella are a brand of children’s books and plush toys based on two real characters, Casey a Jack Russell Terrier and Bella, a Tea Cup Yorkie. In their first book the furry duo embarks on a fun filled adventure to the Big Apple. Throughout the series children will be introduced to new characters and learn about new adventures.

What makes Casey and Bella’s story so unique is its affiliation with a special charity Loving Paws Assistance Dogs, a charity that trains therapy dogs to help children with disabilities and degenerative diseases. Each book in the Casey and Bella book series donates a portion of proceeds to a special not-for-profit charity that helps children or animals.

In their next adventure, "Casey and Bella Go To Hollywood", the adventurous pups travel from Sunset to Rodeo Drive, make new friends, and walk the Red Carpet! "Casey and Bella Go To Hollywood" supports the Jubilee Center of Hoboken, NJ. jubileecenterhoboken.org

### Author Bio

Jane Lovascio is a graduate of Boston University with a Bachelor’s degree in Psychology and a background in elementary education. She lives just outside New York City with her husband and two dogs, Casey and Bella. Jane hopes her story will bring happiness to the lives of children as well as to help those with degenerative diseases.

### Excerpt from the book

“Pardon moi” said a poodle, “excuse me! Please step away or I may catch a flea!” That’s not nice said Casey. “We are just as clean as you. You are no better than us or any animal in this zoo.”

“I think not! I live on Central Park West. I wear a diamond collar and always smell my best.”

Casey said, “It doesn’t matter where you live or what you where. What makes you a good friend is being generous and fair.”
